Re: Katie Mayers - Lobbying Fine
DOCKET # 12/4/20

In addition to the referenced Health problems in July and August, I had additional late fine in October.
During the period of Oct 15 - Nov 12th 2020 I was undergoing my 90 day check up with my own physicians, Dr Louis Blanda Orthopedic Surgeon, Dr. Wael Karim; neurologist, and Dr Troy Martin Family Practice for test and medicine adjustment. I saw Dr Lecorgne October 20th for test results and was ordered to rest until the day of my appt. with Dr. Martin on Nov 2nd. A medicine was added to my regimen, and obsoleted another one which amplified my symptoms. On Nov 9th I saw Dr Karim for brain scan eventhough I saw huge improvement from medicine switch on Nov 2, 2020. I was able to turn in report on Nov 12, 2020.
On Nov 18th I received a call that my brain scan was clear and I could presume. This will not be a future problem or prohibit my deadlines in the future nor prohibit my ability to perform my duties ethically. I am still under the care of Dr. Lecorgne (see letter) and am in good health.

Kindest Regards,
Katie Mayers
