Re: Request for an Advisory Opinion from the Board of Ethics

Dear Mr. Bordelon,

I am currently a senior city planner with the City of New Orleans City Planning Commission. My job description is copied below:

Administrative, professional, and technical work in overseeing major planning functions or projects that include research, analysis, development, presentation or interpretation of concepts and data pertaining to planning and implementation of plans planning surveys; and related work as required.

Additionally, from 2012 to 2017, I worked as a project manager for the City of New Orleans Capital Projects Administration.

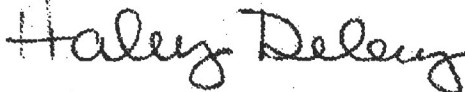

I would like to perform consulting work for additional/outside employment. For example, I would like to provide landscape architectural services for a consulting firm that is seeking a contract with the City of New Orleans Department of Public Works.

I intend to remain an employee with the City of New Orleans and would like to understand any prohibitions. Alternatively, I would also like to understand any post-employment prohibitions should I choose to resign.

My proposed employer is Integrated Logistical Support, Inc. (ILSI Engineering). ILSI is in the process of submitting an RFQ to the Department of Public Works for the specific project that I would assist with. To my knowledge, ILSI does not have any contractual business or financial relationship with the City Planning Commission. If there is specific information needed, it can be provided upon request.

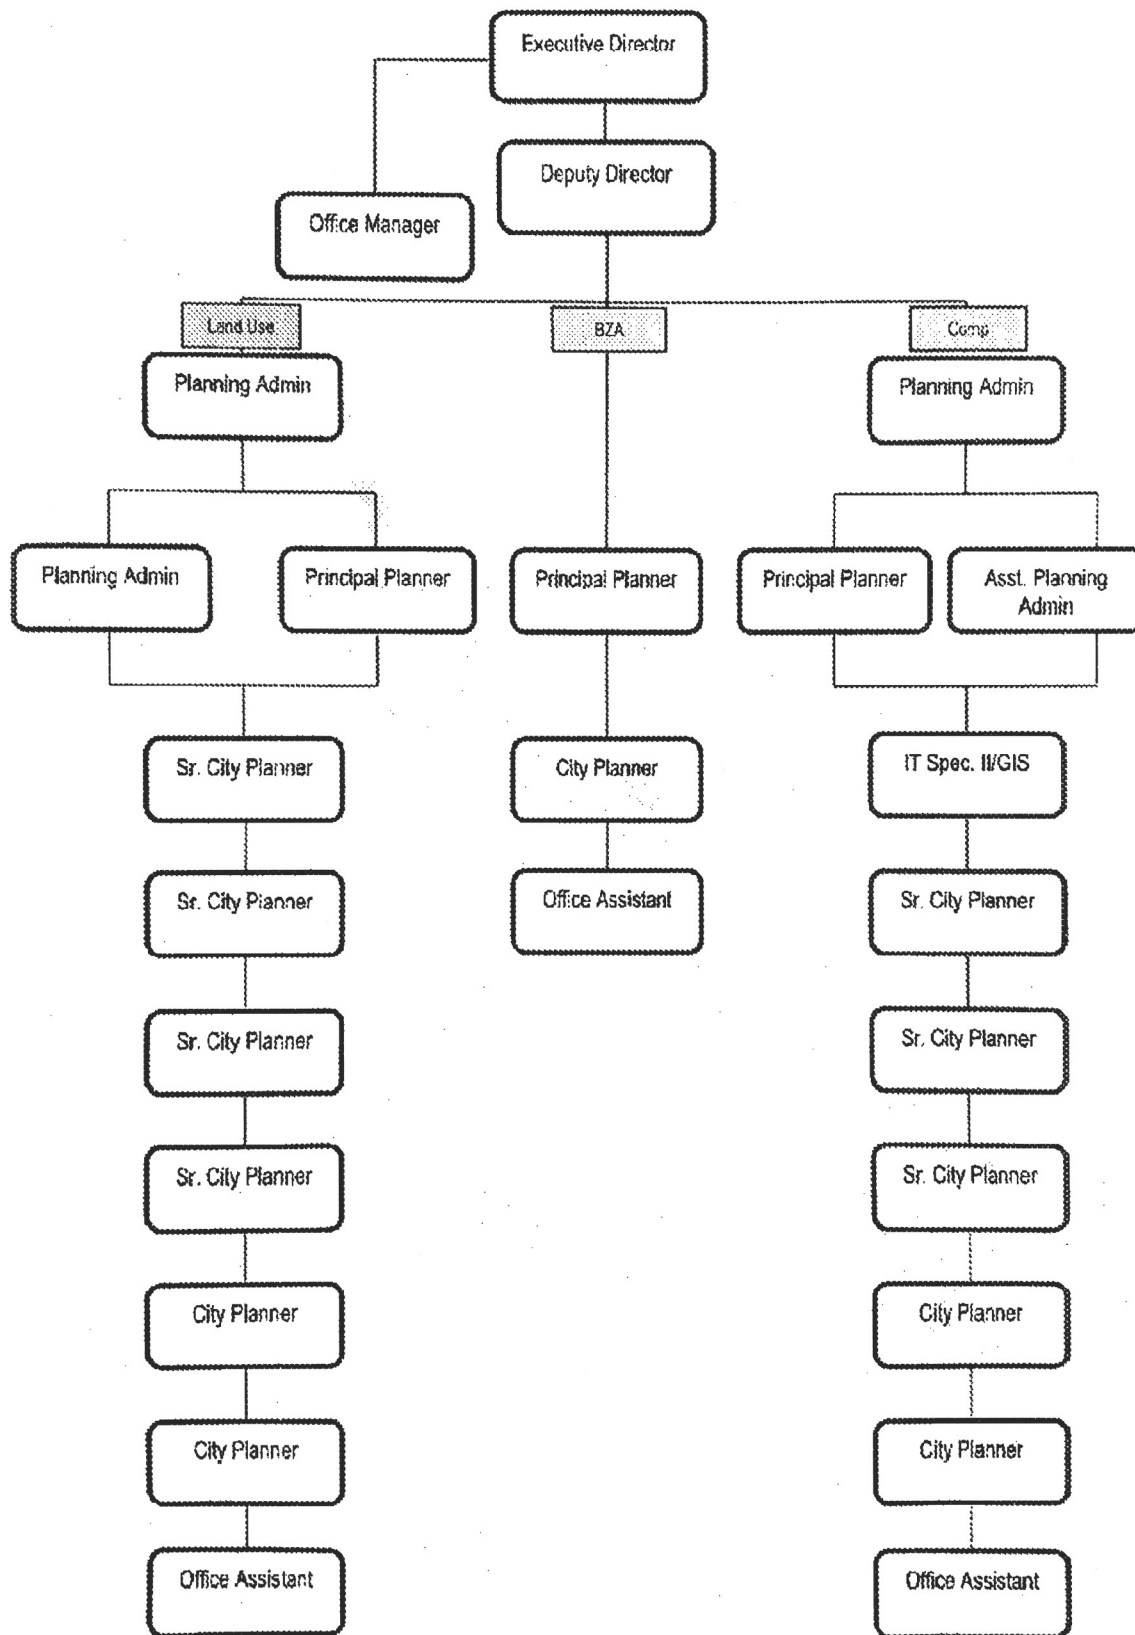

Attached is an organizational chart, including my position as senior/principal city planner.

Best Regards,

Haley Delery
